Malibu Van diversity 640 LE K GT / Fiat Ducato Model year 2025 [GB 2025]

Weight of additional equipment in series production specified by the manufacturer: 193.40 kg
(Basic equipment with standard chassis and 4.00 st approved seats)

Total amount according price list:	3,116.00 kg	88,985.00
+ Total amount additional options:		
Total amount:	3,116.00 kg	£92,735.00

Technically permissible gross vehicle weight:	3,500.00 kg
Remaining maximum weight for additional equipment:	21.40 kg

1 Basic vehicle

Pos.	Article	Weight	Amount
1.1.	160742 <i>Malibu Van diversity 640 LE K GT / Fiat Ducato</i>	2,944.00 kg	£67,160.00
1.2.	310475/310478/310474/310476 <i>Right hand drive</i>	0.00 kg	£0.00
Total amount basic vehicle:		2,944.00 kg	£67,160.00

2 Packages

Pos.	Article	Weight	Amount
2.1	217001 <i>Chassis package</i>	31.50 kg	£3,240.00
	<i>consisting of:</i> <ul style="list-style-type: none">•Fly screen behind sliding door•Seats upholstered in same fabric as lounge including upholstered armrests•90 litre fuel tank•Parking assistant system with rear sensors•Charge booster•Remis driver's cabin blackout system, pleated blinds on windscreen and side windows•Exterior rear-view mirrors, electrically adjustable and heatable•Passenger seat with adjustable height•Electrically folding exterior mirrors•Wiring for radio with roof antenna and DAB+, loudspeakers (4x)•Front headlights frame in black		
2.2	216291 <i>Chassis Plus package for Fiat (for f40/f35 in combination with automatic transmission)</i>	0.00 kg	£0.00
	<i>consisting of:</i> <ul style="list-style-type: none">•Instrument cluster with colour display•Leather steering wheel and gearshift knob•Automatic air conditioning system driver's cabine•Multi functional steering wheel•Electric handbrake•Dashboard finish: Chrome ventilation grille•16 inch alloy wheels, Fiat•Bumpers in same colour as vehicle•Keyless Start incl. Start/Stop button•Inductive smartphone charging station in the driver's cab•Fog lights with cornering lights•Skid plate black		
2.3	212104 <i>Habitation package</i>	5.50 kg	£1,500.00
	<i>consisting of:</i> <ul style="list-style-type: none">•Truma CP Plus digital control panel•Living area ceiling canopy with indirect LED ambient lighting•Roof cover with microfibre layer•Waste water tank, insulated and contained in a housing•Upgrade kitchen centre•Lashing system in luggage compartment•Quality cold-foam mattress for rear bed		

2.4	217002 <i>Fiat semi-integrated driver assistance package</i>	0.50 kg	£1,925.00
	<i>consisting of:</i>		
	<ul style="list-style-type: none"> •Active alertness assistant •Traffic sign recognition •Lane control •Intelligent Speed Assist •Main beam assistant •Rain sensor and light sensor •Tyre inflation pressure monitoring system •Automatic Cruise Control •Active Emergency Brake Assist with pedestrian and cyclist detection 		
2.5	216292 <i>Extended standard equipment Charming coupé/ GT-skyview (for f40/f35 in conjunction with automatic)</i>	-12.50 kg	£0.00
	<i>consisting of:</i>		
	<ul style="list-style-type: none"> •Chassis Plus package for Fiat (for f40/f35 in combination with automatic transmission) •"Charming" lettering 		
	Total amount packages:	25.00 kg	£6,665.00

3 Options

Pos.	Article	Weight	Amount
3.1	310059 <i>140 hp/103 kW engine, Euro 6e, f35 light, 8-speed automatic torque converter transmission, right-hand drive</i>	60.00 kg	£3,500.00
3.2	310686 <i>Removable towbar</i>	36.00 kg	£1,185.00
3.3	310687 <i>Wiring for tow bar</i>	0.00 kg	£255.00
3.4	330010 <i>Fiat series 10</i>	0.00 kg	£0.00
3.5	331615 <i>Fiat full LED headlights</i>	0.00 kg	£1,185.00
3.6	310305 <i>Double leaf spring rear axle</i>	17.00 kg	£240.00
3.7	410226 <i>Exterior colour "iron grey metallic"</i>	3.00 kg	£965.00
3.8	510053/510054 <i>Lithium ion battery 150 Ah incl. battery computer</i>	-9.50 kg	£2,115.00
3.9	510270 <i>Socket Package: 3x USB socket package / 2x 230 V socket package</i>	3.00 kg	£430.00
3.10	650136 <i>Truma Combi 6 D+E incl. height kit (diesel/electric operation)</i>	2.00 kg	£1,310.00
3.11	710030 <i>Fiat 10,1" multimedia system incl. navigation, motorhome route guidance and DAB+</i>	3.00 kg	£1,845.00
3.12	710450 <i>TFT dummy 24" incl. TV-holder</i>	1.50 kg	£215.00
3.13	310673 <i>Heated windscreen</i>	0.00 kg	£300.00
3.14	410420 <i>PREMIUM windows in washroom</i>	2.00 kg	£265.00
3.15	410410 <i>Porthole windows in rear bed area, two on each side</i>	7.00 kg	£475.00

3.16	810035 <i>Cherry Classic interior design</i>	0.00 kg	£0.00
3.17	810120 <i>Removable carpet for driver's cab</i>	2.00 kg	£170.00
3.18	810755 <i>Removable double floor in rear storage compartment with two levels</i>	8.00 kg	£185.00
3.19	810710 <i>Additional suspension rails for table in outer area, mounting on backside of the kitchen</i>	0.00 kg	£115.00
3.20	810580/810690 <i>Changing kit for seating group as sleeping possibility</i>	12.00 kg	£405.00
3.21	850335 <i>Lissabon 25 - Antara fabric combination</i>	0.00 kg	£0.00
Total amount options:		147.00 kg	£15,160.00

4 Non-discountable packages and options

Total amount non-discountable packages and options:

5 Trade partner – additional options

Pos.	Article	Weight	Amount
5.1	Transport/freight charges from Germany	0.00 kg	£3,750.00
Total amount trade partner - additional options:		0.00 kg	£3,750.00

7 Important legal and technical information concerning the selection and configuration of your motorhome_

Configuration overview, factory sales in accordance with regulation (EU) 2021/535 (until June 2022: regulation (EU) 1230/2012)

Every motorhome is only approved for a certain maximum weight on the road, which must not be exceeded under any circumstances when driving. When selecting and configuring your motorhome or van (hereinafter referred to as: "the motorhome"), the technical and legal limits for the weight of the motorhome are therefore of particular importance. These play an important part in the configuration, especially during the selection of additional equipment (equipment packages, special equipment and options).

The technical and legal requirements for the weight of your motorhome are regulated in EU Implementing Regulation No. 2021/535 (until June 2022: EU Implementing Regulation No. 1230/2012). This applies uniformly within the European Union. In order to make it easier for you to select and configure your motorhome taking the statutory and technical specifications into consideration, please be sure to pay attention to our notes concerning this matter, which are handed to you and explained by your dealer/vendor. Alternatively, they can also be downloaded from our web site.

The vehicle weight which is calculated using the product configuration tool / price list includes the so-called weight in roadworthy condition and the so-called weight of ordered additional equipment (equipment packages, special equipment, options). It is important to note that the weight in roadworthy condition is a standard value which is specified during the type approval procedure for the respective layout. The weight that is actually measured at the end of the production line can differ in the roadworthy condition due to production and material weight fluctuations. Deviations of +/- 5% of the weight in roadworthy condition are legally permissible and possible. With regard to this, please also note that a deviation in the weight in roadworthy condition may have an impact on the number of approved seats, meaning that the number of seats may subsequently have to be reduced, a vehicle weight increase will be required and/or additional equipment may have to be omitted in order to comply with the mandatory minimum payload.

For motorhomes, European legislation prescribes a fixed minimum payload, which must at least remain for non-factory installed luggage or other accessories. This minimum payload is calculated as follows:

Minimum payload in kg $\geq 10 * (n + L)$, whereby the following applies: "n" = maximum number of passengers including the driver and "L" = total length of vehicle in metres (including decimal places).

For a motorhome with a length of 7 m and 4 approved seats (including the driver), the minimum payload is therefore $10 \text{ kg} * (4 + 7) = 110 \text{ kg}$, for example.

To ensure that the minimum payload is complied with, there is a maximum combination of additional equipment which can be ordered for each vehicle model. This is expressly shown separately for each model, and must not be exceeded.

Our weight information is provided in accordance with the applicable standards and regulations. Your dealer/vendor will explain how the weight in roadworthy condition, the payload, the permissible number of persons etc. are calculated. With regard to this, please observe our notes & explanations concerning the subject of weight, possible deviations, the possible increase in the weight in roadworthy condition and the payload reduction. Please read these documents carefully before selecting, configuring and ordering your new vehicle.

If, in exceptional cases which cannot be completely ruled out, the actual factory weighing of a vehicle at the end of the assembly line shows that the actual possible payload falls below the minimum payload due to a permissible weight deviation in spite of all of the precautionary measures taken by the manufacturer, we will check with you before delivery of the vehicle whether we should increase the weight of the vehicle, reduce the number of seats and/or whether additional equipment can be removed to reduce the weight. We will only deliver vehicles which comply with the legally prescribed minimum payload. Of course, you will be notified of the actual weight of your vehicle which was measured at the end of the assembly line. This gives you full transparency about any possible actual weight discrepancies in your vehicle.
